NI Student Install Option

This document contains instructions for installing the NI Student Install Option.

The NI Student Install Option DVD includes the following components:

- LabVIEW Student Edition for Windows Vista/XP
- LabVIEW Digital Filter Design Toolkit
- LabVIEW Modulation Toolkit
- LabVIEW Control Design and Simulation Module
- LabVIEW System Identification Toolkit
- NI LabVIEW SignalExpress
- NI Circuit Design Suite
- NI Vision Development Module
- NI Vision Builder for Automated Inspection
- NI Vision Acquisition Software
- National Instruments Device Drivers

The NI Student Install Option is available to students, faculty, and staff for personal educational use only. Commercial, institutional, research, or professional use is strictly prohibited. Installation is restricted to your personally owned computer. Faculty and staff may install the NI Student Install Option on school-owned computers for testing purposes only. For installation on school-owned computers for teaching or research use, you must obtain the appropriate license. Refer to the National Instruments Web site at ni.com/info and enter the info code `acdsw` for information about academic software site licenses designed to fit your needs.

Installation Instructions

Complete the following steps to install the NI Student Install Option.

1. Log on as an administrator or as a user with administrator privileges.
2. Insert the NI Student Install Option DVD and follow the instructions that appear on the screen. If the installer does not run automatically, navigate to the `setup.exe` file on the DVD and double-click it.

Technical Support

Please contact your instructor or professor with technical issues. You also can visit the National Instruments support site at ni.com/support. Web support is available for the NI Student Install Option. Telephone technical support is reserved for instructors and professors only.

To locate additional student resources, refer to the National Instruments Web site at ni.com/info and enter the info code `lvstdnt`.
