

QUICK REFERENCE GUIDE

NI-488.2 .NET Class Hierarchy Chart

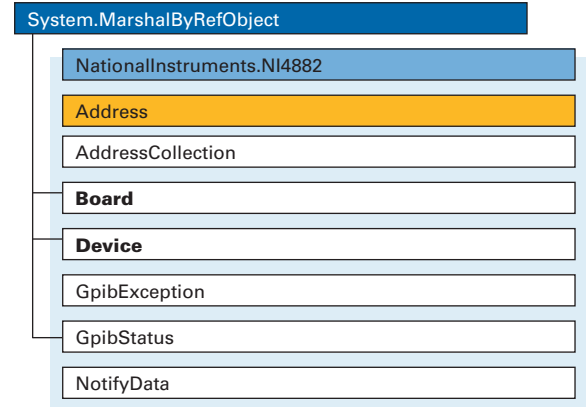

The NI-488.2 .NET class library is in the `NationalInstruments.NI4882` namespace. This class library is included when you install the NI-488.2 driver, and the NI-488.2 driver is available at ni.com/downloads. This class library supports development in Microsoft Visual Studio 2010, Microsoft Visual Studio 2008, and Microsoft Visual Studio 2005.

The NI-488.2 class library includes a set of classes for communicating with GPIB instruments, controlling GPIB devices, and acquiring GPIB status information. You can use this library to design code that communicates with and controls instruments on a GPIB interface. You use the NI-488.2 class library to configure and communicate with GPIB devices using the `Device` and `Board` classes.

For more information about the NI-488.2 class library, refer to the *Using the Measurement Studio NI-488.2 .NET Library* topic in the *NI Measurement Studio Help*. For more information about GPIB, visit ni.com/gpib.
