

FieldPoint™ Note to Users

Using FieldPoint and Compact FieldPoint Safely in Hazardous Locations

This product is suitable for use in U.S. and Canada: Class I, Division 2, Groups A, B, C, D, T4 hazardous locations; and nonhazardous locations.

Cautions Explosion hazard—Substitution of components may impair suitability for Class I, Division 2.

Explosion hazard—Do not disconnect equipment unless power has been switched off or the area is known to be nonhazardous.

Equipment must be used within its electrical and environmental ratings. Refer to the *Specifications* section of the product manual. Refer to the product label for manufacturing location.

This product must be installed in an enclosure rated at least IP 54.

For screw-terminal connections on the FP-1000, FP-1001, and FP-TB-1, use 16–26 AWG copper wire with 7 mm (0.28 in.) of insulation stripped from the end. Tighten screw terminals to 0.5–0.6 N · m (4.4–5.3 lb · in.) of torque.
