USER GUIDE AND SPECIFICATIONS
USB Flash Drive

User Guide

Installation
(Windows 8.1/8/7/Vista/XP/Server) No drivers are required. Windows automatically detects and installs drivers for the USB flash drive when you insert the drive into a USB port.

(Mac OS X 10.7/10.8/10.9) No drivers are required. OS X displays an icon representing the USB flash drive on your desktop when you insert the drive into a USB port.

Disconnection
(Windows 8.1/8/7/Vista/XP/Server) Complete the following steps to disconnect the USB flash drive.
1. Double-click the Unplug/Safely Remove/or Eject Hardware icon in the system tray in the lower right of your screen.
2. Select the name of the device that you want to remove in the window that appears.
3. Click Stop. Windows displays the following message:
   This device can now be safely removed from the computer
4. Click OK.
5. Remove the USB flash drive from the USB port.

(Mac OS X 10.7/10.8/10.9) Complete the following steps to disconnect the USB flash drive.
1. Drag the icon representing the USB flash drive into the trash bin.
2. Remove the USB flash drive only after the icon disappears from the desktop.
Specifications

Compatible with USB specification revision 1.1, 2.0 and 3.0.

Hot Plug & Play.
No external power is required......................DC 4.5 V to 5.5 V from USB port.

Transfer rate for USB interface
  Super speed...........................................up to 5 Gbit/s for USB 3.0
  High speed ..........................................up to 480 Mbits/s for USB 2.0
  Full speed..........................................up to 12 Mbits/s for USB 1.1

Shock resistance..................................1,000 G (maximum)

Power consumption..................................<110 mA when in use.

Altitude ..............................................80,000 ft (relative to sea level)

Acoustic noise......................................0 dB (at one meter)

Vibration ...........................................15 G peak-to-peak max

Operating temperature ............................0 °C to 70 °C

Humidity ..........................................20% to 90%

Korea Certification

MSIP-REM-NAT-PA5080L

Company Name ......................................National Instruments Corporation
Product Name ......................................USB Flashdrive for NI Software
Model name ........................................PA5080L
Manufacturer .....................................National Instruments Corporation
Origin ..............................................Taiwan
